

KGRD Science Supplies (MoDG Syllabus)

Thank you Lauren Fuller!

I went through this list and put * by the things I would not hide in a box in my closet. However, I would totally gather the rest including buying doubles of household things like a comb and a dollar store glass cup (the only glass here is the periodic wine glass, until it inevitably breaks.) I'd be all putting salt in a baggie and vinegar in a travel bottle. BUT, maybe y'all have a better handle on your household than I do...
